

Synthetic Extended Surface Bag Filter

Product Specifications

Excel Series

Excel extended surface bag filter shall incorporate an ultra-fine, dual ply 100% synthetic media. The stitching shall be coated with a thin line of hot melt adhesive to secure the thread to the media and seal any perforations in the media caused by sewing. The pockets shall be individually adhered to an internal aluminum tube header. Each individual pocket shall be fastened to the next by means of pocket support ribs, which are mechanically attached to the internal header. The entire assembly shall be encased in a galvanized steel header frame to prevent racking and possible bypass of unfiltered air. Excel Filters shall be Classified under U.L. standard 900. Excel Filters shall be rated to withstand temperatures up to 160 degrees Fahrenheit.
